EDUCATION

Bachelor of Science in Computer Science

11/2025 – Present

University of the People

GPA: 3.92/4.00

- Completed coursework: Programming Fundamentals (Python), Introduction to Computer Science (Java), English Composition, Online Education Strategies
- Achieved A+ in Programming Fundamentals and A in Introduction to Computer Science

Full-Stack Developer Course Code Lab

2025

- Comprehensive training in frontend (HTML, CSS, JavaScript, Bootstrap, Vue.js) and backend (PHP, MySQL, Laravel) development
- Currently learning MERN stack (MongoDB, Express.js, React, Node.js) for full-stack JavaScript development

Computer Science

2017 – 2020

University of Computer Studies, Yangon

(Paused)

- Foundational coursework in programming (C++, C#, Java, J2EE), algorithms, data structures, and computer systems

PROJECTS

Online Learning Platform

GitHub

Laravel | MySQL | Blade | Bootstrap

- Developed multi-role learning management system with Admin, Teacher, and Student access levels
- Implemented course management, assignments, payment integration, and rating system
- Built notification system and progress tracking for enhanced user engagement

Point of Sale (POS) System

GitHub

Laravel | MySQL | Bootstrap

- Built complete point-of-sale system with user authentication and role-based access control
- Implemented product management, inventory tracking, and sales transaction processing
- Created comprehensive reporting dashboard with data export functionality

Media Platform (Laravel + Vue.js)

Admin Repo Client Repo

Laravel | Vue.js | REST API | MySQL

- Developed decoupled media platform with Laravel API backend and Vue.js SPA frontend
- Implemented RESTful API endpoints for media upload, retrieval, and management
- Built responsive Vue.js components with API integration for seamless user experience

CRO Header Optimization (Technical Assessment)

GitHub

Next.js | TypeScript | Tailwind CSS

- Completed take-home assignment for Talent.os focusing on conversion rate optimization
- Redesigned website header with custom button variants and scroll-based animations
- Optimized component structure for improved user engagement and conversion metrics

PROFESSIONAL SUMMARY

Full-stack developer with expertise in Laravel, PHP, Vue.js, and expanding knowledge in MERN stack (MongoDB, Express.js, React, Node.js). Strong foundation in multiple programming languages including Python, Java, C++, and C#. Experienced in building scalable applications including POS systems, media platforms, and learning management systems. Currently pursuing Computer Science degree at University of the People with 3.92 GPA. Strong problem- solving abilities with focus on clean code, responsive design, and user experience. Seeking opportunities to contribute to innovative web applications in startup or remote-first environments.

TECHNICAL SKILLS

Programming

Python, Java, C++, C#, J2EE, PHP, JavaScript (ES6+), TypeScript

Currently Learning

MERN Stack (MongoDB, Express.js, React, Node.js) at Code Lab

Backend

Laravel (Authentication, CRUD, Eloquent ORM, Blade Templates), Node.js, Express.js, MySQL, MongoDB, RESTful APIs

Frontend

HTML5, CSS3, Vue.js, React, Next.js, Bootstrap, Tailwind CSS, Responsive Design

Tools & Workflow

Git/GitHub, VS Code, Chrome DevTools, NPM, Composer, Command Line, Web Security Best Practices

CERTIFICATIONS & LANGUAGES

Full-Stack Developer Course Code Lab (2025)

Responsive Web Design Certificate - Code Lab

EF SET English Certificate - B2 Upper Intermediate

(Overall: 58/100) with C2 Proficient Speaking (81/100)

PROFESSIONAL ATTRIBUTES

- Strong problem-solving abilities with focus on clean, maintainable code
- Quick learner with demonstrated ability to master new technologies independently
- Excellent communication and collaborative team player with strong English proficiency
- Detail-oriented with strong UI/UX awareness for user-friendly applications
- Adaptable and eager to contribute to innovative web development projects

Professional Experience

translator and script writer

09/2022 – 06/2024

YoYoJoy youtube channel

Yangon

- Translated English content to Burmese and wrote scripts for movie and series recap videos
- Researched and condensed complex storylines into engaging, concise narratives for YouTube audience
- Managed multiple projects and met consistent deadlines in remote work environment
